THE GLOVE. BY ROBERT BROWNIE

PROBLET MONNING.

"Heigho." yawned one day King Penucis,
"Dismone all wine enhances!

"Dismone all wine enhances!

Strikes his as wonderful pleasure,—
Strikes his as wonderful pleasure,—
Strikes his as wonderful pleasure,—
Strik, and at leiture one is be—
Straightway be wants to be bony.

Here we've got pleasure and athest. I'm
Canght binking war het treest pestime!

Give as your peece, master Peter 'I who, if mortal dare say so,
"Sire," I'r replied, "joes prore elocalles:

Mes are the increase Trions "—
Mes are the increase Trions "—

Heigho... go look at our lions!"

Sich are the convent draines.

If you talk fine to King Francis.

And no, to the centrarial proceeding.
Our company Promish we inceiling.
Increased by new followers tenfold
Refere he arrived as the penfold;
Lords, ladies, like eloods which beliene
At smost the western horizon,
And Sir De Lorge pressed fault the foremost
With the dame he penfected the adore most—
With the dame he penfected the adore most—
Her, and the hornthe piside;
For the penfold surrounded a hollow
Which told where the eye exerce dared follow,
And silved to the chamber scelded
Where Blueband the areast line brooked.
The Kine halfed his keeper, an X-rah
and silved to the chamber scelded
Where Blueband it a creat line brooked.
The Kine halfed his keeper, an X-rah
And hale him make aport and at once air
Up and unt of his deep the admoster.
They opened a hole in the wire-work
A and shelp in the proper his control,
I and the horn the proper his control,
I and the him make aport and at once air
Up and unt of his deep the admoster,
They opened a hole in the wire-work
A and shelp in the pirk month was rounded,
A passe, while the pirk month was rounded,
A passe, while the pirk month was rounded,
By the dierwork's slow apackling and sputter;
Then cartli in a nodlen constroin
Gave cut to our gaze her absorbion 1.
Such a horse liver afford Chement Marot
(Whose specience of anture's but antrow,
And whose feetiles movier in our smill into
One's whole blood grew cauding and erecy
To we the block man, yaan and keepy.
The tail in the nir still and straining,
I'm while how a man who a urarounded
On the space that might study his in head stead;
The wide eye, a reached and they reased
On the space that might study his in head stead;
The wide the processed of the steady
The wide the processed of the steady
The wide the processed of the management,
The respins of clutter and blaze means,
And if in this timust of wonder,
I also the management,
I have not a surface of the management,
I have the block of the steady of the management,
I have the block of the steady of the management,
I have the block of the steady of the management

The sentence no sooner was attered,
Than over the rails a glove fluttered,
Pell close to the lion, and restor.
The dame 't was, who flong it and jested
With life so, De Lorge had been wooing
For months pay; he saie there pursoing
Hes sail, meething out with nonchlance
Fine speeches like gold from a balance.

Fine speeches the goal trom a counter.

Sound the trumpet, no true knight's a tarrier!

De Lorter made one spring at the barrier,

Walked straight to the clover,—while the lion

The pain-tree-deed desert sprine's supplier,

and the musty joid ski no the Confirer,—

Pleked it np, and as easinty retreated,

Sprang back where the lady was ward,

And full in the face of its owner.

"Your heart's queen, you dethrone ber? So shall I," eried the King..." Itwas mere vanity Not love, set the task to homanity!" Lords and fadies alike turned with loathing From such a proved wolf in sheep's clothing.

From such a proved wort in natural source of the Notice, It for Leaght an expression In her hours, andjust their self-geometries. And if the Contribution of the national self-geometries of the national self-geometries. As if from no pleasine experiment Self-geometries, and if the national self-geometries of the national self-geometries. So long so the process was needful—As if she had titted in a cracible. To what "speeches like gold" were reducible, "Self-geometries, for the national self-geometries, and the national self-geometries." Ad a 'm' were reducible.
